

3-Side Flip Cover

Product Specification:-

The 3-side flip cover is a stylish and versatile way to keep the Cables organized and concealed away from active sight, giving your room a clean look. It is conditioned for tough use and Fortified with alloys removing all the traces of brittleness from the product. The cover eliminates the scope of cable sticking together and you can use it from 3 sides.

Technical Details:

- Chemical attack or rusting would not take its toll on the cables
- The brush on the top lid through which cables are routed Eliminates the scope of cables sticking together even when the ambient temperature rises

Method of Fitting:-

Flushed with the table top by making the cut out in the table
