

Cable Wrapper

The Cable Wrapper Cable Management Spine is designed to organize and conceal cables across a variety of desk systems, offering a clean, efficient solution for cable management. Available in 1-meter & 2-meter lengths, the Cable Wrapper features cable cutouts at every 50 mm interval, allowing cables to be accessed and managed from each section, ensuring a neat and organized setup. The adjustable hook-and-eye straps make it easy to fit desks of various heights, providing versatility for different workspaces. Cables can be quickly managed by simply opening the Velcro, placing them inside the spine, and re-fastening, resulting in a streamlined, clutter-free workspace. This practical solution helps maintain a tidy, professional appearance while enhancing the functionality of any office environment.
