

Work Connect

Work Connect is a versatile under-desk Power System designed to streamline connectivity in modern workspaces. Configurable to meet the specific needs of your project, Work Connect offers a wide range of Power, Protection, DATA, and AV Options, providing a comprehensive and adaptable solution for any workplace. The robust metal housing is available with 2 to 30 modules, allowing flexible configurations to suit various requirements. Installation is made easy with a simple two-screw fixing method, enabling quick integration into cable trays or ducts. This easy-to-use fixing method also provides secure fastening options, allowing installation in partition wall systems, panels, or even soft seating. With these flexible installation options, Work Connect can be seamlessly integrated into a variety of office layouts, ensuring reliable and efficient connectivity wherever it's needed.
